

# 2025 IMPACT

Pointing others to the Great Physician  
through gospel and church-centric  
healthcare partnerships

In 2025, Medical Missions Outreach celebrated a milestone that humbles and amazes us—twenty years of ministry. What began as a simple step of obedience has grown into a global movement of compassion and gospel impact.

Over these two decades, we have watched God open doors in nations we never imagined, allowing teams to serve in some of the most remote and underserved places on earth. We have seen churches planted, pastors encouraged, and communities transformed—not only through medical care, but through the hope of Christ. Lives have been changed physically, emotionally, and eternally.

What has always set this ministry apart is the heartbeat of our volunteers. Thousands have said “yes” to go, to give, and to serve. Many have returned home forever

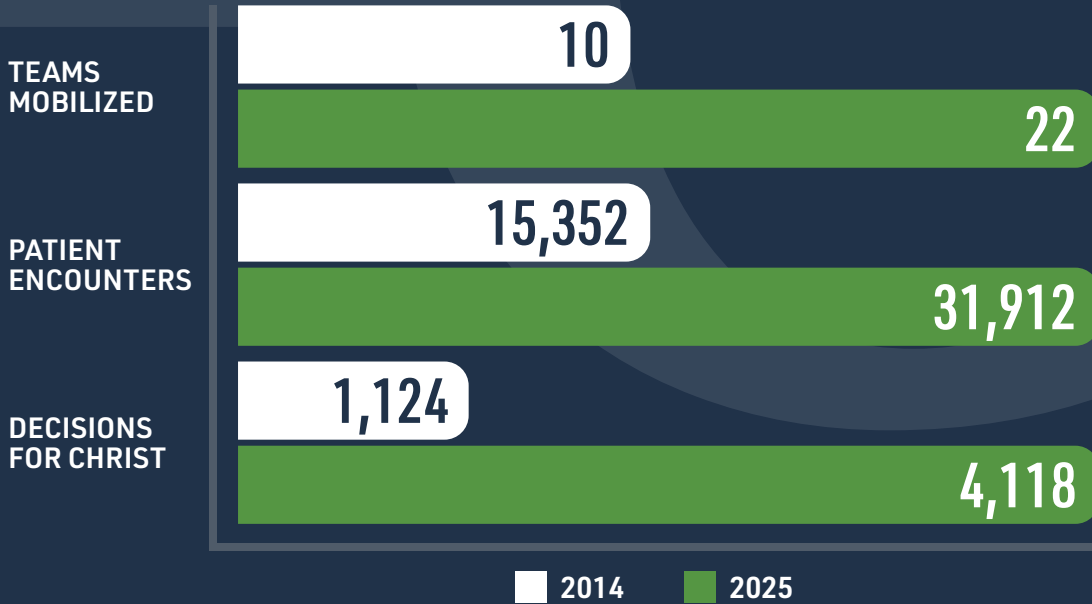

changed, carrying with them a deeper love for people and a stronger faith in God. The connection between our teams, our hosts, and the communities we serve has become family.

MMO today looks very different than it did in year one—and that is a testimony to God’s faithfulness. We have grown, refined, and strengthened, but our mission remains the same: pointing others to The Great Physician. Twenty years in, we are more convinced than ever—God is not finished.

**Bradley Edmondson**  
 Executive Director

# Looking back...

Over the last twenty years, the Lord has blessed us with the ability to grow and expand our mission. The chart below is evidence of God's goodness in just over the past ten years! We are so thankful for God's continued guidance and provision.

## VOLUNTEER HOURS LOGGED

Our mission to point others to the Great Physician is a demanding one, and a task that we certainly can't accomplish alone. Many of our programs on the mission field are directly supported by the efforts of dedicated volunteers at home in the United States. Whether it be time spent at one of our four eyeglass recycling centers, in your home crafting puppets and eyeglass pouches, or online logging patient forms, we thank you for your time spent ensuring others hear that there is a Healer!

# Prep a Puppet

OVER 800 PUPPETS DONATED  
APPROXIMATELY 2,000 PUPPETS SENT TO THE FIELD  
6 NEW PUPPET TEMPLATES CREATED

We are in need of more puppets!

# SUPPORT STATS

We would be unable to accomplish our mission without the outpouring of support we receive from you, whether that be through the giving of your prayer, your time, or your treasures.

This year, we notably raised support through our annual Journey Gala, our continued Tribe program, and through an End-of-Year Giving campaign hosted in *Empiric* Issue No. 3. Thank you for all you do and give in support of our ministry!

## NEW TRIBE MEMBERS\*

In 2025, The Tribe hit 300 members for the first time! We are so thankful for our growing community of travelers and supporters that support us year-round through The Tribe. If you are interested in learning more about The Tribe, [click here](#).

\* At \$25 a month, this equates to an additional \$17,100 per year in support! We are grateful for the integral role that our Tribe members play in pointing others to the Great Physician!

Tribe members in Cambodia

So many good things have happened this year. But you should know—there are other things that are harder to tell you. **Sometimes we hold back on talking about the brokenness.** It's important to acknowledge that there is just so much of it in the places where we work. We hear stories of abuse and rejection. There is pain and suffering with no end in sight. We grip the hands of our patients as the tears fall, begging God to give us something, anything to say in this sacred moment when they open their hearts to us. Many of you came with us and heard these stories for yourselves.

You know about the things that we struggle to describe. But if we stop short of telling you about the brokenness, then we will also fail to tell you about the joy of redemption. We have seen God go before us and behind us in painful places, putting us exactly where He needs us to be. He's connected suffering people with help and resources at just the right time. He's introduced them to local church people eager to love them through their darkest moments. His children have been filled with His Spirit and spoken grace and comfort through the tears. **As deep as the pain and sorrow run, the overwhelming flood of God's lovingkindness runs deeper still.** In 2025, these rushing waters carved new grooves in our souls.

We need you to know what we know: God used your gift. No matter the size of the number, it was monumental to us, because we found people that no one was yet reaching. People showed up at our clinics who never would have come to a local church for any other reason but pain. And when they did, they were received with empathy, understanding, and open arms from the body of Christ. Thank you for making sure that we got to them.
